

TYPICAL WEBSITE AND HOSTING COSTS

Step 1/ Purchase URL

Domain Name (URL) registration 1 year	\$50.00
---------------------------------------	---------

However it's better value & less paperwork to register it for 3 years (\$39.95/yr)

Step 2/ Open a web hosting account

Hosting Setup (one off cost)	\$50.00
------------------------------	---------

Your account will be set-up you up with email at your address (domain name) as well as a very simple webpage with your contact details. You will have emails like: yourname@YourBusiness.com, and you will have a webpage at: <http://YourBusiness.com>

The email address can be used immediately, and you will have a basic single page website with contact info and logo (if provided). This web page is the starting point for your website as/when it is created.

Half Yearly hosting charge (at \$40.00 per month)	\$240.00
---	----------

We bill each quarterly or monthly, and it can be paid by check, cash or preferably direct deposit.

TOTAL Setup and first six months hosting	\$340.00
---	-----------------

Step 3/ Creation of WebPages

Pricing your WebPages depends on what you would like. It can be broken down to two components; first the graphic design and second the page content creation. First, the webpage development cost will typically be between \$600 and \$1800 depending on the extent of the content.

Typical webpage development	\$1000
-----------------------------	--------

Secondly there is the cost of the graphic design and photo editing. If you have some images to use and want a budget website this might cost from \$80. At the other end of the spectrum, if you want a professional website that portrays your company image effectively, while being easy to use, you should budget \$800 – \$2500 for the graphic design. The common cost is between \$600 and \$1200.

Typical graphic design and photo editing	\$800
--	-------

This means your website will *probably* cost between \$1500 and \$4000. We will provide a fixed price after talking to you, and working out what you need taking into account your budget and business ideas.

TOTAL Typical Setup, Design, Development & Hosting	\$2140
---	---------------
